

LETTERS OF FATHER NICHOLAS YOUNG, O.P.

St. Joseph's, Jany 1835

Rt. Revd Dr Bishop

Having a little Leisure (which the pressing duties of the season have for some time prevented) to consider with my Brother the proposition we sometime ago wish(?) to give up to you the Church in Canton upon certain conditions I embrace this day to lay them before you & to make the views of all there was to you, beging your concurrence respecting the erection of other churches now greatly needed in different congregations served by us. 1st You are aware that there are only 5 acres of land attached to the church of Canton that were given for the use of that church. All the other property in our name at Canton consisting of 4 or 5 acres with two small lots purchased by our late Provincial your Predecessor in the Episcopacy with the monies(?) he had received in expressly for the Order in this State. That property has cost us \$1000 or thereabouts. We propose giving you the Church and the ground belonging to it requiring nothing for that we have properly all the right and legal title we now hold and immediately calling our subjects from Canton. 2ndly if you wish to have the other property (as it is desirable it should belong to the Church there) we shall let you have all for what it cost us namely 1000\$ as it shall be ascertained to be more or less. If you shall think proper to decline taking this property we shall then dispose of it to any others who may be inclined to purchase it for its just value. F Fahey informs me that the people of Canton are very desirous to build a larger church the present one being much too small. It would be very desirable on that account that the clergyman who shall succeed him and F Allemann could be sent there in order to forward the business or that we come to an understanding as soon as possible on this subject.

2ndly It has now become necessary to build a larger church in Lancaster. As the present one was built by our exertions and by the will of your Predecessor belongs to the Order, we ask your permission to build a new church on the present lot or any other we can procure in Lancaster. If granted, the congregation shall be continued of course under our care, and if not we shall give it up with all our right to the Church and no longer consider it under our care.

3rdly We have a lot in Columbus a church there is wanting perhaps at this time in no place greater than at Columbus in the Diocese. With great exertions of a clergyman one might be erected in the course of this or next year. Mr. Martin who occasionally visits there with your approbation shall undertake it, provided he remains in Lancaster, this authority we also ask. 4thly We also ask permission to build a church at Taylorsville as the Taylors we hear have already commenced a subscription for the purpose. As we shall be at no expense for that

church or labours in its erection, we shall have the lot on which it may be built deeded to you.

4thly I again beg you to send a Clergyman to Mt. Vernon a zealous one there, I am confident would do immense good. The congregation of Sapps Settlement and those of Mt. Vernon would give one a very comfortable support, and both there and Danville good churches would soon be erected.

Be pleased Rt. Rev. Sir to give us a decision answer to the above as soon as it shall be convenient, our missions in future for this Diocese shall be regulated by your answer. It is necessary to have a clear understanding and not any longer grope in the dark. I wish to concentrate our members and that there be no cause of misunderstanding between any and the Bishop whome God has or may hereafter place over us in this or any other Diocese, we may give our labours. I trust that our views will be properly understood, and that the churches built and the congregations manly(?) exclusively served by us in this Diocese are sufficient to convince our respected Bishop that we are actuated in our exertions for the general good of the Diocese and the salvation of those souls committed to our care *servantis privilegiis Regularium*.

A Roman Catholic is married to an unbaptized nonbeliever by a heretical minister. We have 2 or 3 such cases. Be pleased to say what we can do with the C party wishing to be reconciled, and grant any dispensation in your power. Beging your prayers and blessing

I am with great respect

18th March 1835

Rt Rev & Dr Bishop

I have received your favor of the 17 Feby in due time. I could not answer it before this, the importance of the subject requiring some consideration. After thanking you for the expressions of friendship for us & the holy Order of which we are unworthy members, I regret to say that our views on the general subject of your letter are entirely different, and that the sentiments you so candidly avow in the course you shall pursue in erecting of future churches in your Diocese, must inevitably force us to adopt a different mode from that we have hitherto been under in the building of churches since the formation of this Diocese.

We cannot therefore accept your offer regarding Columbus or Lancaster -- upon condition that you allow us to build churches in both these places in our name, we will give up the church and 5 acres of Canton mentioned in my last, & also the lot last purchased opposite the church, the rest of the property we shall dispose of for its just value. As much as we desire to see Congregations multiplied in the Diocese, we do not conceive that we should be justified in contributing our labours and means in the erection or establishment either by precedent or the regulation of any other Diocese, unless those be held by our body so long as we shall supply them with approved Pastors. The reference you make to N England, N York, as precedents to govern us here, I conceive no ways applicable. In those States there was no Religious body established, consequently it could not be expected that the Churches there should have deeded to a body not existing or having no agency on their action. I doubt, however, whether the

Churches in those States are generally in the name of the respective Bishops. I believe with but few exceptions they are held by Trustees -- would they not be more secure in the hands of a Religious Body? With regard to the other States Pa and Md, you refer me I must beg leave to inform you that two of the churches of Phila are held by a Religious body, & that there are several more throughout Penna & most important ones held by the Jesuits & the most of those not held in their name, are in the name of Trustees. As for Maryland, I am astonished you seem to know so little about the Churches there. I can inform you that there are but few churches in that State not in the name of the Jesuits, and that the remainder (not excepting the Cathedral of Baltimore) are generally in the hands of Trustees. Bp Flaget has stated correctly, that we possessed but one church in his Diocese, this however is no argument, our body there had enough to do in managing that church & the largest congregation in Ky & supplying this Diocese with the Missioners without desiring an extension in that State. The good Bps of Ky & mission(ers) of course will act as they may judge best, but I can tell them that Religion will not be the better provided for in their Dioceses by thus charging the Religious Orders. We are far from requiring of you then, what no where else exists in the U S, we asked your authority as we should do, to employ our labour & our limited means in erecting Churches in your Diocese on the same principles as has been done in other Dioceses as well as hitherto in this when founded by the united zeal &c of Religious. What may be said by your secular clergy, we know not, but I would say to them O for your Bishop, employ your labours & means in erecting Churches, you cannot expect the Religious in the Diocese to do so for you, we must all provide for ourselves holding in view the honor & glory of God. As for what Rome would say, we wud not be solicitous, provided Religion flourishes. I presume to say that the Holy See would not be curious to know much more regarding our churches.

I have been under the necessity of recalling F Fahy from Canton. I hope you will find some one to supply his place. I shall also soon recall F Allmann, he is entirely unfit for that place, indeed I would not have him there a day longer were it not for the present necessities. I find he has much injured by his weakness the reputation of F Fahy. The statement he gave you in a letter about his refusing to attend a sick call I assure you is a great misrepresentation and I beg you not to believe it. I hope it will be in your power to send one of the German Gentleman to Canton in a very short time. Mr. Allmann should not remain there a day longer than possible.

I Columbus above, but will now recall the conditions regarding that place, we really wish to have nothing to do with it & shall most willingly give you up the lot there in our name, only give us the liberty of building the Church of Lancaster on the above terms & we shall do as I have stated.

I would be glad of your decision respecting those cases mentioned in my last. Several of us have persons on hand that require immediate action. If you think proper to grant me the power of dispensation for all such cases of infidelity it would be saving us much trouble.

I do not know when it may be in my power to visit Cincinnati. Soon I shall be obliged to go to Kentucky, & if possible shall take Cinti on my way or on my return. I hope you will be able to provide for Sapp's. Our Missions here have become too extensive to place it in our power any longer to attend regularly that section of the Country.

The information you received regarding Mr McGrady is entirely incorrect, he has not been in Columbiana since his visit there with me last year, nor has he as

I know of, any communication with any one there, more than what his private business has called for.

Begging your blessing & praying for us all & that you may derive every benefit from the Retreat we are now engaged in

I am &c

N. D. Young, O.P.
